

# Your financial advantage

**Time is money.** And never more so when it relates to investment return. One main advantage when you build with **Asset Cabins and Homes** is shown in the following graphs which illustrate building duplexes on either a vacant site, or on a site where an existing older dwelling is replaced by duplexes. **Clearly, the Asset Cabins and Homes building system is far more efficient than conventional building meaning less 'dead-time' and more return!**

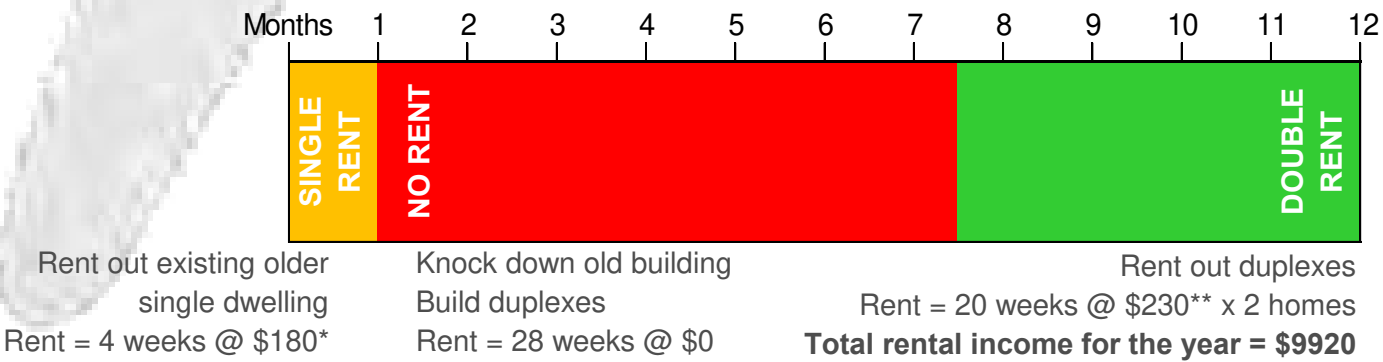

## building duplexes on vacant land

## Knock down and rebuild duplexes with Asset Cabins & Homes

## Knock down and rebuild duplexes the conventional way

The difference?

**An extra \$11,040 in 12 months!**

\*Sample rent only. Actual rent may differ. \*\*Sample rent only. Increased because of improved property value. All comparisons are samples only and in no way offer a guarantee of actual results, nor form part of any contract. Interested purchasers should satisfy themselves as to the correctness of these details.
