

Environmental Policy

At Asset Cabins and Homes, we are committed to minimising our environmental impact and promoting sustainability throughout our operations as a manufacturer of modular houses and cabins. Our Environmental Management System, based on ISO 14001 standards, ensures continuous improvement in every aspect of our operations.

Our commitments include:

- **Compliance:** Comply with all applicable environmental laws, regulations, and other requirements related to our operations.
- **Pollution Prevention:** Strive to prevent pollution by minimising the environmental impacts associated with our processes.
- **Continuous Improvement:** Continually improve our environmental performance by setting and reviewing environmental objectives.
- **Sustainable Practices:** Integrate environmental considerations into our decision-making processes, including product design, sourcing, manufacturing practices and strive to minimise waste generation.
- **Education and Training:** Provide education, training, and awareness programs to our employees to promote environmental responsibility.
- **Communication and Engagement:** Communicate our environmental policy and performance to stakeholders and engage them in our efforts to achieve environmental sustainability.

We are committed to protecting the environment, preventing pollution, and continually improving our environmental management system to achieve sustainable development.
